Matoshree Vimalabai Deshmukh Mahavidyalaya, Amravati

Exclusive Extension Activity

Internal Quality Assurance Cell (IQAC) VISIT AT BIHALI

(A Tribal Village in Chikhaldara taluka, District Amravati)

Name of the activity	:	Teaching English Language at primary level (Anganwadi)
Name of the department	:	Department of English
Name of the teacher	:	Dr. Mrs. Savita D Thakare Assistant Professor & Head Dept. of English
Target Group	:	i) Student of Anganwadi ii) Anganwadi Teacher
Number of participants	:	i) 40-45 student of Anganwadi (Age group 03-06 years) ii) Anganwadi teacher -01
Goal / objective of the visit	:	i) To observe the method of teaching English to the Students of Anganwadi ii) To teach them innovative method of teaching language iii) To create interest in the English Language iv) To facilitate the teacher to use new method in place of the traditional one. v) To help teacher to make the foundation of English language good at this level only.

Introduction

The main problem India new faces is that all the pedagogical innovations are fit to improve the quality of urban education while the rural learners and their education remain largely neglected. With 65% of the population residing in rural India, education there truly deserves much more attention, especially when it is plagued with so many problems – dearth of teachers, teacher absenteeism and poor quality of teacher.

One of the biggest concerns is that of teaching of English Language at primary level. Unless the students are taught properly at this level, they will not perform well at higher level ultimately. To make the present generation learners future ready, it should be the biggest issue of educators across India. As there is a global competition for securing jobs and what not, it is very important to have a knowledge of English.

To come out from the traditional way of teaching English from the Alphabet Chart has become a need of the time. And to train the teachers, continuous professional development is motivator for teacher and enough attention is needed in this regard.

Methodology Adopted

- Interactive method
- Group Discussion
- Question – Answer method
- Use of Visual aids

Execution of the activity

Almost the students enrolled in the Anganwadi were present on 29th March 2019. The little kids ageing from three to five years sat together in a room full of attractive aids like chart, toys, cards and various other things.

They were taught to reply in English few general knowledge questions like their name, Village, State etc.

CRITERION – III RESEARCH, INNOVATIONS AND EXTENSION

I asked them for the letters in the alphabet and for what they stand for the students replied in the way they were taught. I asked them –ie. 'A' stand for what ? They all replied in the single voice – "Apple" and so on.

I told their teacher to ask them what else they know about 'A' stand for ? May be they know 'Aeroplane' or 'Armchair' etc. Likewise they must be taught, taking any letter from the alphabet and ask what that particular letter stand for ?

In this way I taught them the innovative way of teaching and learning English Language.

Outcome of the activity

A Child's imagination is extraordinary. If we focus on their creations, they will definitely marvel. Adults / Teachers should take the time to analyse what kids say. New and Innovative teaching methods, if applied can bring out unbelievable wonders. And also will help them grow well and in future make them stand perfect in this competitive world.

Any other activity

All the students were given refreshment at the end and ready made clothes prepared by our students were donated to the Anganwadi teacher Mrs. Mangala Vidhale.

On the way to Amravati, we came across one bed of banjara people (Tribals) residing under the tents. We distributed sweets and refreshment along with the clothes to them also.

The radiant faces of the tribal children and their parents made us feel contented in life.
