Guardian Teachers Scheme:

Shri Shivaji Education society's

Matoshree Vimlabhai Deshmukh Mahavidyalay Amravati

❖ **Introduction:**

Guardian Teacher scheme is one of the healthy practice successfully run by our institute since its inception in the year 2000. The scheme serves to establish a cordial relationship between teacher and students, bring solution to student's problems and helps to unlock student's potentials. The scheme focuses on the vital role of the teacher as a mentor (disguised in the form of a Friend, Philosopher and Guide) to mould the wet clay into humans. Also, throws light on the involvement of the teachers as movers and shapers in laying down the strong foundation of our society and nation. Today's Google Generation demands the major role of a teacher as a Guardian, Counselor and as a Guide. It is our prime responsibility to imbibe moral values and to bring out the best in the student.

To have one to one interaction, a teacher is assigned the role of Teacher –Guardian for a batch fifteen students. For effective communication and observation, students from the class which the teacher engages for theory /practicals are allotted in the first year and the same G.T.is continued for three successive years.

❖ **Objectives of Guardian Teacher Scheme:**

• Mentor - Mentee Scheme envisaged by NAAC is implemented by college as Guardian Teacher (GT) Scheme.

• One of the healthy practice successfully run by our institute since its inception in the year 2000.

• G.T. scheme serves to establish a cordial relationship between teacher and students, bring solution to students' problems and helps to unlock students' potentials.

• The scheme focuses on the vital role of the teacher as a mentor (in the form of a Friend, Philosopher and Guide) to mould the wet clay into humans. It throws light on the role of the teachers as movers and shapers in laying down the strong foundation of our society and nation.

• Today's Google Generation demands the major role of a teacher as a Guardian, Counselor and as a Guide. It is our prime responsibility to imbibe moral values and to bring out the best in the student.

• To have one to one interaction, for a batch of 20-25 students, a teacher is assigned the role of G.T.

• For effective communication and observation students from the class which the teacher engages for theory/practical's are allotted in the first year and continued for three successive years.

Every year the committee frames a theme like:-

1. Efforts taken by the teachers to increase the attendance of the students.

2. Join Hands for Clean and Green Environment (Imbibe Belongingness) and is accordingly implemented by the guardian Teachers.

❖ **Need for the Implementation of Guardian Teacher Scheme:-**

• To acclimatize the student and provide emotional support.

• To establish good sense of rapport with the students so as to develop a healthy teacher-student relationship.

• The teachers should interact informally and be in contact with the students. So that student's problem regarding educational, socio-economical, health related and family related could be sorted out and help can be rendered.

The Student mentoring system is continued in the College from 2017-18. All the Teachers are involved in the process of mentoring. Every teacher as mentor is allotted with students faculty wise to take care of them depending upon the program. Every mentor prepares a list of all the students allotted to him / her with details of Name, Class, Contact Number and E Mail Id. Report

Title of the Guest Lecture : "Awareness of Energy Conservation"

Aim : To allows the better interaction between the students and Faculty and brings all the students on an equal platform.

Objectives : To broaden the skills, as well as their understanding and to develop the scientific and Social temper between the students.

ENERGY CONSERVATION OBJECTIVES:

Energy conservation is the effort made to reduce the consumption of energy by using less of an energy service. ... This can be achieved either by using energy more efficiently (using less energy for a constant service) or by reducing the amount of service used (for example, by driving less).

Turning off the light when you leave the room, unplugging appliances when they're not in use and walking instead of driving are all examples of energy conservation. The two main reasons people conserve energy are to gain more control over their energy bill and reduce the demand on the earth's natural resources.

5 COMPONENTS OF A VIRTUOUS CYCLE FOR ENERGY EFFICIENCY:

The good cycle of organizational energy effectiveness is -

1) Executive engagement.
2) Resource investment.
3) People.
4) Identification, implementation and results measurement and verification.
5) Stories and sharing.

NATIONAL ENERGY CONSERVATION DAY:

National Energy Conservation Day is observed on December 14, every year.

National Conservation Day focuses on making people aware of global warming and climate change and promoting efforts towards saving energy resources. Check out and know more about finding out date, history and significance:

Energy conservation is the decision and practice of using less energy. Turning off the light when you leave the room, unplugging appliances when they're not in use, and walking instead of driving are all examples of energy conservation.

In simple ways, energy conservation means reducing the consumption of energy by producing or using less of it. This could be in the form of using fewer energy services or using devices that require less energy.
