Department of Physics organised "Seminar on "CYBER CRIME" ON
15 /02/2019 AT 11.00 AM.**

Departmental Activity: "Seminar on "CYBER CRIME" ON 15 /02/2019 AT 11.00 AM.

• AIM AND OBJECTIVES OF THE SEMINAR ON CYBER CRIMES SEMINAR:

- 1) To disseminate knowledge of the different forms of cybercrime in the 21st century.
- 2) To understand the present Indian law regarding cyber-crime.
- 3) To protect potential victims from cyber crimes and teach cyber safety and protection guidelines to the students.

Cyber security is important because it protects all categories of data from theft and damage. This includes sensitive data, personally identifiable information (PII), protected health information (PHI), personal information, intellectual property, data, and governmental and industry information systems.

Without a cyber security Seminars, our organization cannot defend itself against data breach campaigns, which makes it an irresistible target for cyber criminals.

Both inherent risk and residual risk is increasing, driven by global connectivity and usage of cloud services, like Amazon Web Services, to store sensitive data and personal information. Widespread poor configuration of cloud services paired with increasingly sophisticated cyber criminals means the risk that your organization suffers from a successful cyber attack or data breach is on the rise.

Business leaders can no longer solely rely on out-of-the-box cyber security solutions like antivirus software and firewalls, cybercriminals are getting smarter and their tactics are becoming more resilient to conventional cyber defences.

Cyber threats can come from any level of your organization. Workplaces must include cyber security awareness training to educate staff about common cyber threats like social engineering scams, phishing, ransom ware attacks (think WannaCry), and other malware designed to steal intellectual property or personal data.

The creation of data violation means that cyber security is not just relevant to heavily regulated industries, like healthcare. Even small businesses are at risk of suffering irrecoverable reputational damage following a data breach.

Cyber security is the state or process of protecting and recovering computer systems, networks, devices, and programs from any type of cyber attack. Cyber attacks are an increasingly sophisticated and evolving danger to your sensitive data, as attackers employ new methods powered by social engineering and artificial intelligence (AI) to circumvent traditional data security controls.

Dr. D. R. Bambole, Convener, HomeScience faculty of Matoshree Vimalabai Deshmukh Mahavidyalaya, Amravati organised the Seminar on "CYBER CRIME" ON 15 /02/2019 AT 11.00 Am. Event Details :

The main objective of this Seminar is to create awareness about the newly launched National Education Policy-2020 amongst teachers, students, officials, parents and other stakeholders in the higher education system. The Union Cabinet approved the National Education Policy-2020 on July 29, 2020. This is the third Education Policy in India after independence. The new National Educational Policy-2020 seeks to introduce and implement changes across all levels of education in India.

As per UGC, there is a need to create awareness about NEP 2020 amongst teachers, students, officials, and other stakeholders in the higher education system. In order to reach out to all the stakeholders in the higher education system, the UGC has desired higher educational institutions to use various platforms for the dissemination of the NEP 2020.

Some provisions of the policy are promising a bright future but at the same time, huge institutional transformation is also causing apprehensions. This is the biggest proposed change in education sector, whose implementation will be a great challenge.

OBJECTIVES OF THE EVENT

- To provide a platform for educational thinkers, policy makers, administrators, teachers, scholars, students and all other stakeholders for discussion and sharing of ideas.
- To create awareness about the National Education Policy (NEP) 2020
- To facilitate desirable reforms in the country's education system.
- To provide a wide range of learning experience.

Report

ABOUT INDUCTION PROGRAM: -

Learners come with diverse thoughts, backgrounds and perceptions. Hence it becomes important to help them adjust to the Matoshree Vimalabai deshmukh Mahavidyalaya, Amravati has organized a induction program with an objective to provide ample of time and a platform for the transition of students from undergraduate to the post graduate.

The program conducted during COVID - 19 session through online platform on 24 December 2020 on zoom app. Our Principal Dr. Sanyogita Deshmukh addressed to all the students about corona virus and about institutes rules and regulations.

Prof V. R. Thakare, Prof. S. S. Mohod also played vital role in Student Induction Program (SIP). Thakare sir address about discipline committee and Mohod madam gave detail information about anti - ragging committee and explained about rules of anti-ragging event.

Concept: -

Purpose of the student induction program is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them to build bonds with other students and faculty members.

Necessity: -

Due to corona pandemic, there is online teaching mode and physical meeting could not be possible. Due to such situation the new students could not get very well acquainted with the college campus and the culture of department. They even could not establish good bonding between themselves. With this background student induction program engages with the new students as soon as they come into the institution, before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, culture and values, and their mentor groups are formed.

CRITERION VI - GOVERNANCE, LEADERSHIP AND MANAGEMENT

Objective: -

Our college strives for a culture of excellence in education, which promotes research and fosters creative talents, college always leads in arranging activities for the students. The graduating student must have excellent knowledge and skills in the area of his study. However, He/ She must also have broad understanding of society and relationship. Character needs to be nurtured as an essential quality by which He/ She would understand and fulfill the responsibility as a citizen and a human being. Besides the above, several meta skills and underlying values are needed. To come out of this situation, a multi – pronged approach is needed. The main objective was to organize is a well-planned event to educate the new entrants about the environment in the institution, and connect them with the people in it.

One will have to work closely with the newly joined students in making them feel comfortable in their new environment, allow them to explore their academic interests and activities, reduce competition and make them work for excellence, promote bonding within them, give a broader view of life, and build character. Its purpose also was to students, develop awareness, sensitivity and understanding of the self, people around them. Transition from school to university/college life is one of the most challenging events in a student's life. Currently, precious little is done by most institutions, except for an orientation program lasting a couple of days. Hence student induction is designed to help them in the whole process. Our aim was to promote research culture among the freshers of U.G students. The aim of this webinar was to ignite the flame of search and motivate the expression power of their innovative ideas.

Outcome: -

- Entrants were able to display confidence and successful transition into a new academic environment.
- Freshers were able to get convinced with structured and collaborative learning platform.
- Freshers were enriched with an informative E- learning paths.
- To express their innovative ideas.
